# LAMINATE

## Standard Finish Option

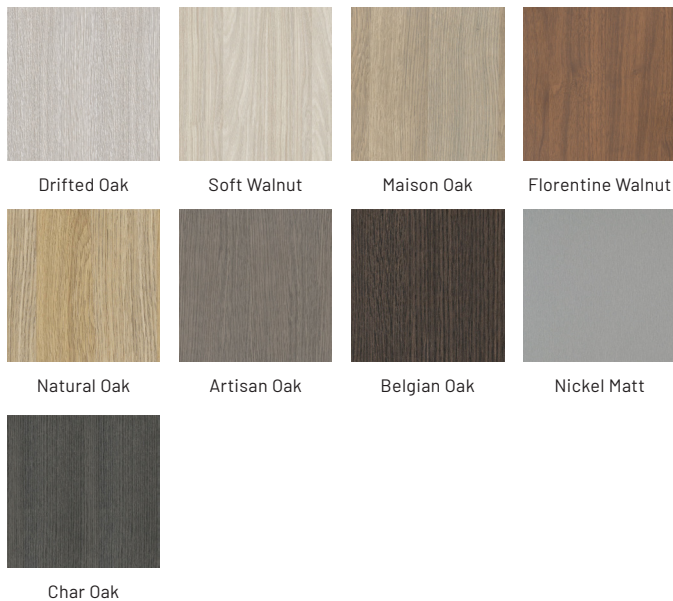

Laminate is a refined decorative surface that brings together colour, texture and durability. We source our laminates from trusted premium manufacturers to ensure exceptional finish, performance and longevity.

### Solid Laminate | Smooth Finish

### Grain Laminate | Smooth Finish

### UPGRADE FINISH / Ravine Laminate | Textured Finish

# COMPACT LAMINATE

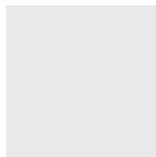

## Upgrade Finish Option

Compact laminate is a high-density material engineered for exceptional strength and durability. Its moisture resistance and structural stability make it ideal for outdoor environments, including coastal settings where exposure to sun, humidity and salt air demands long-lasting performance.

# ROCK EDGE™

## Standard Finish Option

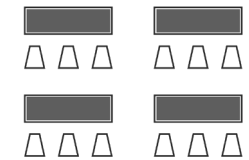

Rock Edge™ is a solid, high-density protective edge integrated into the tabletop core for exceptional durability and impact resistance. Available in custom colours, it allows the edge to complement or contrast the surface while maintaining long-term performance in demanding hospitality environments. Only available for Conference & Banquet tables.

# VENEERS

## Standard Finish Option

Wood veneer is a natural timber surface that brings warmth, texture and authenticity to a tabletop. Carefully selected and finished, veneers highlight the unique grain of the wood while offering a refined and timeless aesthetic.

### Veneers

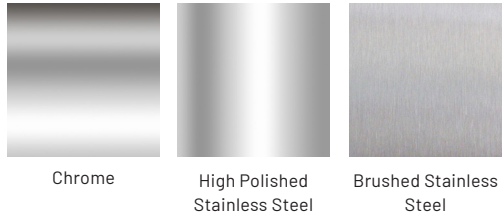

# STEEL & POWDERCOAT

## Standard Finish Option

Steel finishes are available in powder-coated and electro-plated options, offering durability alongside a refined architectural appearance. These finishes provide strong protection against wear while allowing a range of colours and metallic tones to suit different design palettes.
